

CONNECTED SOLUTIONS

Lighting for Smarter Environments

Connected Solutions from Focal Point is a multi-partner program which enables a vast selection of luminaires to integrate with popular intelligent building lighting management systems. The program makes it simple to select Connected Solutions enabled luminaires that will meet the aesthetic and performance requirements of a space, and support smart building management. The networked systems allow for the monitoring and modulation of light levels and temperature for personalized control, increasing the comfort and well-being of occupants, and resulting in time, energy, and cost savings.

*Not available with nLight®. *Not available with Legrand® Wattstopper®.

Connected Solutions

A variety of sensors, drivers and other components make each luminaire individually addressable to enable manual and time-based on/off and dimming, occupancy sensing, multi-zone daylight harvesting, and temperature control. Meeting the needs of each project is as simple as selecting Focal Point luminaires compatible with the existing or specified whole building lighting control system!*

Connected Solution	Ordering Code	Protocol	Compatible Networks*	Occupancy & Daylight	Temperature Reporting	Communication to Luminaire
 legrand® WATTSTOPPER®	DLM1	DLM	DLM	Enabled	No	Wired
	LMFS1	DLM Wireless	DLM	Enabled	No	Wireless
	LMFSD					
 COOPER Lighting Solutions	WLXP	WaveLinx Wireless	WaveLinx Pro Trellix	Enabled	No	Wireless (WaveLinx Pro Wireless Area Controller)
 CRESTRON	L11	0-10V	Crestron Züm Wireless & SpaceBuilder	Enabled	No	Wired
 ENCELIUM	CLM1	ZigBee	Encelium X Light Management System	Enabled	No	Wireless
 Enlighted	ENL1	Enlighted RF	Enlighted	Integrated	Yes	Wireless
 LUTRON	LH1	EcoSystem	Quantum, Energi Savr Node, Energi TriPak	Enabled	No	Wired
 nLIGHT	NLT1	nLight	nLight	Enabled	No	Wired
 LIGHTING CONTROLS®	NXE1	NX	NX Distributed Intelligence	Enabled	No	Wired

*Not all compatible networks may be listed. *All Connected Solutions luminaires require a compatible building control system. Controls systems supplied by others.

For more information about Connected Solutions visit www.focalpointlights.com/ConnectedSolutions. For more information about each building control system, visit the manufacturer's website or consult the DesignLights Consortium® (DLC) Networked Lighting Control Qualified Product List.
