

FOCAL POINT®

TM

A photograph of a modern office interior. The ceiling is made of exposed wooden beams and planks. Large windows on the left side offer a view of a city street with brick buildings. The office is furnished with cubicles featuring light-colored wooden desks and bright yellow drawers. A black ergonomic office chair is visible in the foreground. A semi-transparent text box is overlaid on the left side of the image.

ETCH™ is subtle and small.

Etch complements architecture with balanced light and fosters comfortable work environments.

Direct/indirect distribution with T5, T5H0 or T8 lamps is efficient, attractive and effective.

In any space, Etch allows your design to leave a big impression.

ETEH™

performance & distribution

All Etch options meet Focal Point's everGreen requirements of 80% or higher efficiency, with T5 options exceeding 90%.

Etch provides indirect illumination above with a soft glow below. Choose a one lamp option for wide angle indirect distribution allowing increased row spacing and close-to-ceiling mounting.

shielding	lamping	efficiency	uplight	downlight
lens	1T5	96%	82%	18%
baffle	1T5	92%	90%	10%
	2T5	95%	87%	13%
	1T8	85%	85%	15%
	2T8	80%	77%	23%

wall mount companion

Available in one lamp options to complement the suspended versions, Etch wall mount provides subtle asymmetric uplift with a soft glow below.
