Bringing It All To Light®

Tazo®

Flexible design that stands alone

A brand of  legrand®

Flexible design

Tazo® is an elegant, free-standing luminaire designed to bring the light where it's needed and to allow for easy reconfiguration of spaces where people work – **at the office and beyond.**

Dual-arm and single-arm form factors, direct lensed or louvered illumination, optional indirect illumination, and regular or high output lumen packages make specifying the ideal luminaire for each application easy.

Occupancy and photo sensors for task lighting and wireless, in-fixture controls of ambient lighting contribute to minimizing energy consumption while maximizing user comfort.

Tazo features a cord & plug design that makes it easy to reconfigure spaces as needs evolve.

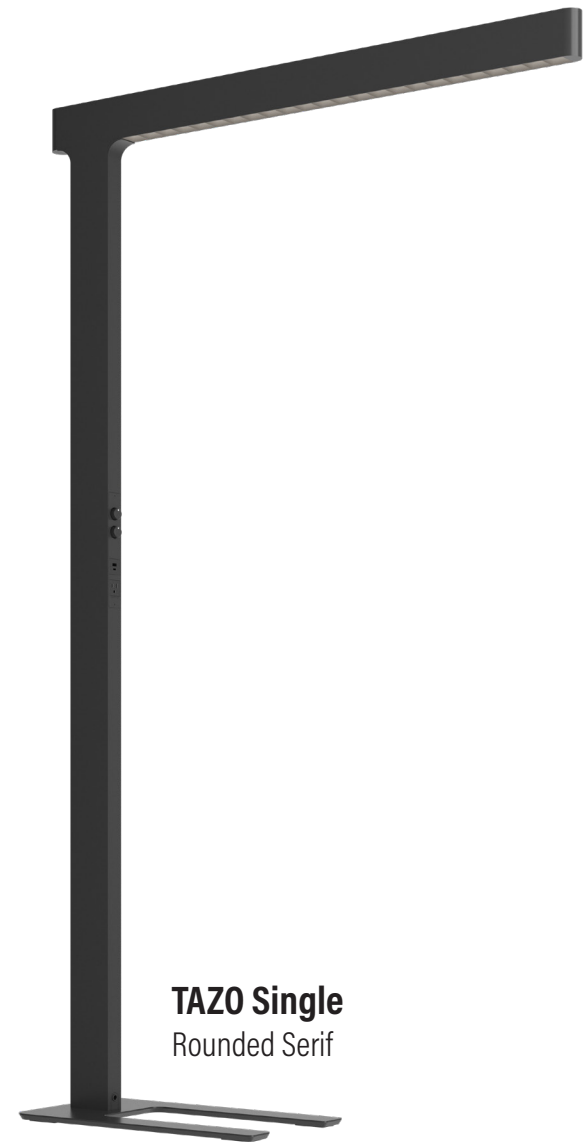

User conveniences include intuitive dimming controls and an optional AC outlet and USB-A / USB-C power receptacles.

This free-standing luminaire coordinates with Seem 1 Family luminaires to offer maximum flexibility while ensuring design cohesiveness.

Up to the task (lighting) and more

Tazo is up to the task when it comes to delivering high-performance task and ambient lighting in a variety of settings. Independently controlled light sources make it easy to modulate lighting in response to daylight or to create the desired ambiance.

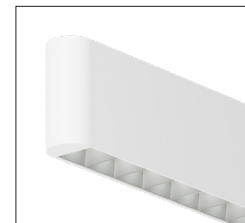

Lensed or louvered direct illumination supports visual comfort. Optional wide batwing indirect illumination provides comfortable ambient lighting.

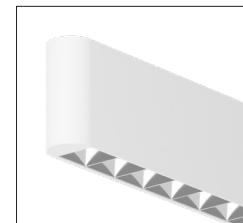

Louvers with ID+® technology

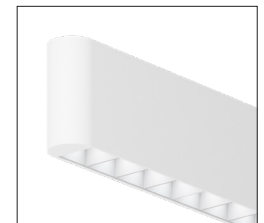

- Visual comfort with deep 60° regress
- Wide beam spread with 68° louvered mixing chamber
- Shared light source with Seem 1 Louver luminaires, ID+ Downlights, and ID+ Cylinders

Cord & Plug

A free-standing floor lamp delivering architectural quality lighting, Tazo offers the ultimate combination of performance and flexibility for specifiers and building owners - **simply pick up and move, no electrician required.**

Tazo is adaptable to open workstations, individual offices, small conference rooms, huddle spaces, and lounge areas.

Plug & Play

Tazo is equally suitable in workplaces as it is in amenity, hospitality, or educational spaces - **anywhere people live, work, and play.**

With intuitive dimming controls that remember user preferences, AC outlets, USB-A and USB-C charging ports, Tazo delights users not only with its light quality, but with its ability to create the perfect work environment, virtually anywhere.

Take control

Tazo allows users to control ambient and task lighting simultaneously or independently. An optional occupancy and photo sensor provides additional opportunities for energy savings.

Networked control of the indirect light source allows for unified control of the ambient illumination using a variety of wireless control systems. Spaces appear uniformly lit while preserving local control of the direct task lighting.

Tazo grows with you

Whether for a growing company adapting to the needs of its workforce, an educational facility as dynamic as its students, or a multi-use amenity space, Tazo provides the ease of use and flexibility required in rapidly-changing environments.

Each luminaire is wirelessly addressable, allowing for easy reprogramming of the lighting controls.

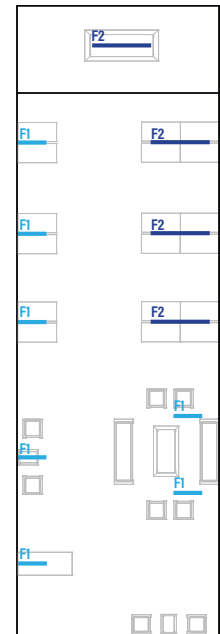

Flush lens, high output up and down shown

Phase I

The owners of a startup and a small team make new ideas come alive in a spacious, open office that includes 18 individual workstations, a large meeting room, and a lounge area.

Total Luminaires: 7 Tazo Single (F1), 4 Tazo Dual (F2)

Indirect Output	Direct Output	Lens		Louver	
		Avg. fc	LPD	Avg. fc	LPD
Regular	Regular	34	0.18	53	0.18
	High	41.2	0.21	65	0.21
High	Regular	35.1	0.20	54	0.20
	High	42.3	0.23	67	0.22
Direct only	Regular	29.0	0.10	60.5	0.10
	High	36.2	0.13	36.2	0.13

*Footcandles based on average workplane illuminance.
Light loss factor (LLF): 0.90. Reflectances: 80/50/20. Ceiling height: 12 ft. Total area: 2123 sq. ft.

Needs evolve, spaces get reconfigured, and Tazo remains.

Flush lens, high output up and down shown

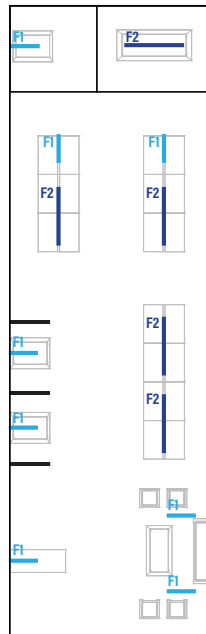

Flush lens, high output up and down shown

Phase II

As the company achieves success, more workstations are needed, and the large meeting room is divided into two meeting and collaboration spaces.

Total Luminaires: 8 Tazo Single (F1), 5 Tazo Dual (F2)

Indirect Output	Direct Output	Lens		Louver	
		Avg. fc	LPD	Avg. fc	LPD
Regular	Regular	31	0.21	49	0.22
	High	38.2	0.25	61	0.25

(1) Tazo Dual & (1) Tazo Single - Louver, Regular Up & Down

Average Footcandles - 47.89

Cost-effective and energy-efficient, Tazo delivers over 100 lumens per watt. As it focuses light on the work surface, where it's needed, and minimizes over-illumination of circulation and non-task areas, Tazo provides optimal task lighting levels and translates to lower power density over conventional lighting solutions. Its versatility makes it the luminaire of choice in many different settings.
