

# Seem® 1 Point Source

## SUSPENDED IES FILE PLACEMENT GUIDE

### Step 1: Download & Import selected Seem 1 linear IES files

- Seem 1 Direct Suspended: files starting with FSM1Lx
- Seem 1 Direct/Indirect Suspended: files starting with FSM1Bx

### Step 2: Download & Import selected Seem 1 Point Source IES files

Seem 1 Point Source: files starting with FSM1xxx-xxxx-PSx

### Step 3: Layout linear runs

Place IES files for all Seem 1 linear runs in your calculation software. These should run from the start to end of a run, no gaps are needed to account for point sources.

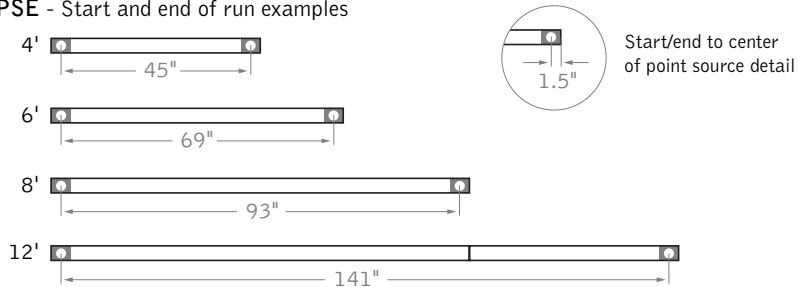

### Step 4: Layout point source downlights

Identify the desired point source downlight spacing, reference below guide for on-center (OC) spacing dimensions.

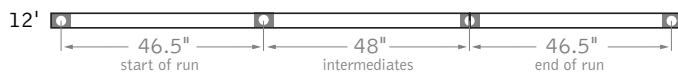

Starting at the beginning of the linear run, place your first point source and then arrange using the OC spacing dimensions.

\*Please note that linear and point source files should overlap.
