

Seem 2 LED Family

A narrow 2.5" aperture luminaire designed to fit organically into architecture and provide a clean visual aesthetic, Seem 2 integrates with ceilings and walls in different configurations to bring harmony to interior spaces and to support diverse applications. It allows for design flexibility with modern finishes, individual lengths, continuous runs, or patterns in a variety of mounting styles: recessed, perimeter, suspended, surface mount, and wall mount. Several shielding, color temperature, and distribution options provide the perfect blend of high performance and visual comfort.
