

FOCAL POINT®

Bringing It All To Light®

**WHAT IT TAKES TO KEEP
YOUR CREW HAPPY.**

CEILING SOLUTIONS THAT MEET THE CONTRACTOR CODE OF CONVENIENCE.

At Focal Point, we realize it's not enough to make a complete, quality line of integrated acoustical lighting and ceiling systems specifically designed for ceiling contractors. We also need to make sure that we're easy to do business with. So we've put into place a host of conveniences specifically designed for you.

PRODUCTS THAT ARE EASIER TO WORK WITH

Before Focal Point releases a new product, we turn it over to a contractor for installation feedback. Unless it's easy to install, the product goes back to engineering for modifications.

INSTALLATION INSTRUCTIONS

Every product comes with installation instructions and/or videos, available from our website and YouTube channel. Make sure to review them and to contact our experts with any questions you might have.

MULTIPLE MOUNTING OPTIONS

We offer a variety of mounting options to support various ceiling conditions, including cable, direct to grid (DTG), direct to strut (DTS) or hardware by others (no mounting hardware included - NH), which translate into cost and time savings on the job.

A FIELD SERVICE TEAM UNLIKE ANY OTHER

From installation tips to trouble-shooting help, they know how to get you answers in hours, not days.

A COMPLETE ACOUSTIC PORTFOLIO

With 25 years of experience working in the ceiling and hundreds of integrated acoustic ceiling system installations across North America, we've made the procurement and installation process as smooth as possible.

Our Acoustic Portfolio includes lay-in tiles, pendants, cloud systems, patterns, and linear baffles in a variety of height and length configurations and with installation methods to meet various job or ceiling requirements.

FLEXIBLE PURCHASING OPTIONS

We offer ceiling contractors various purchasing options to meet their job, timeline, and channel requirements. Please contact us at acoustic.solutions@focalpointlights.com to learn more.

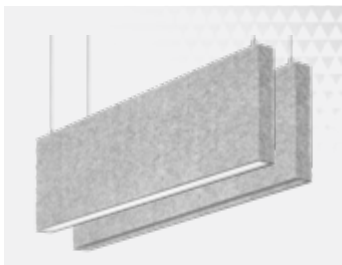

MAKING IT IN CHICAGO MAKES IT ALL POSSIBLE

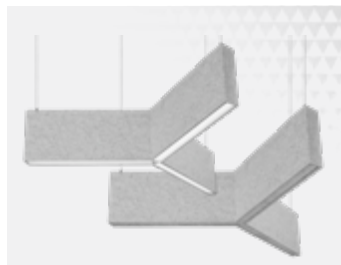

Everything comes out of our Chicago operations: design, engineering, manufacturing, testing, customer service, shipping, billing... it's all here, joined by hallways, not highways. Come visit us in Chicago for a tour and to see how Focal Point controls everything needed to bring you rapid delivery of superior product, and it provides you with quick and easy access to information and support, directly from our team of experts.
