

LEED® & WELL REFERENCE GUIDE

FOCAL POINT®

Bringing It All To Light®

Focal Point luminaires and acoustic solutions optimize light levels and address reverberation issues in various occupied environments, contributing to the achievement of the Leadership in Energy and Environmental Design™ (LEED®) and WELL Building Standard™ (WELL) certifications.

The reference guide below provides a quick visual reference of the credits and features that Focal Point products contribute to for both LEED® and WELL certifications.

LEED®

focalpointlights.com/LEED

Rating System	Credit Category	Credit	Prerequisite or Credit
LEED® v4.1 BD+C	Energy & Atmosphere	Optimize Energy Performance	Credit
		Minimum Acoustic Performance	Prerequisite
	Indoor Environmental Quality	Interior Lighting	Credit
		Daylight	Credit
LEED® v4.1 ID+C	Energy & Atmosphere	Optimize Energy Performance	Credit
		Interior Lighting	Credit
	Indoor Environmental Quality	Daylight	Credit
		Acoustic Performance	Credit

WELL
