

FOCAL POINT®

Bringing It All To Light®

POLINA™ UPLIGHT

Application Guide

Polina Uplight allows for up to 8 feet on-center spacing while delivering at least 30 foot-candles on the work plane and a ceiling uniformity of 1.25 on a flat ceiling.

Ceiling: 12.5' AFF, 8" square beams, white
Suspension: 18" (11' AFF)
Spacing: 6' on-center
Distribution: Batwing
Lumen Output: High (2789lm)
Workplane: 35 average foot-candles

Ceiling: 12.5' AFF, flat, white
Suspension: 18" (11' AFF)
Spacing: 6' on-center
Distribution: Batwing
Lumen Output: High (2798lm)
Workplane: 54 average foot-candles

POLINA™ UPLIGHT

Application Guide

Ceiling Uniformity

Spacing Criteria: 3

3 x distance from ceiling (stem length)

EG: 3 x 24" drop = 72" on-center spacing

Ceiling: 12.5' AFF, flat, white

Suspension: 32"

Spacing: 8' on-center

Distribution: Batwing

Lumen Output: Max (3430lm)

12" Suspension, 6' OC

18" Suspension, 6' OC

24" Suspension, 6' OC
