Bringing It All To Light®

2021 Vol.1

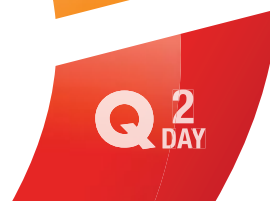

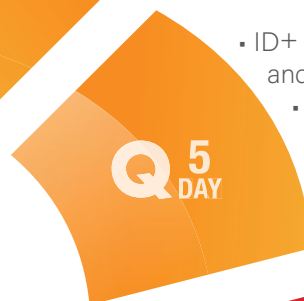

Quickship **RED**

Quickship and **Quickship RED** give you access to the products you need with the speed that you require. Made-to-order luminaires are available for shipment in 2, 5, or 10 days and, when the job calls for unique designs, our engineering team and US-based manufacturing facility are also here to support you with custom luminaires.

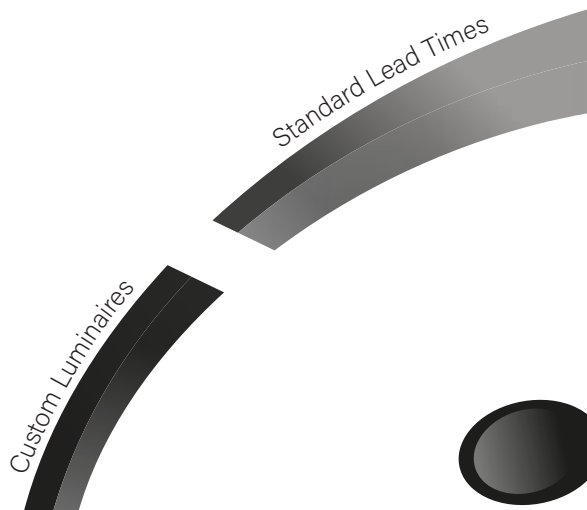

- Linear, perimeter and cove luminaires – individual units, runs, patterns
- ID+ 3.5" Adjustable downlights
- ID+ 3.5" and 4.5" Cylinders
- Architectural troffers

- ID+ 3.5" and 4.5" Downlights and Wall Washers
- Architectural troffers

Most popular options offered for the ID+ 3.5" and 4.5" Downlights and Wall Washers

Learn more at focalpointlights.com/Quickship

Need downlights fast? Look no further! Quickship Red offers 2-day lead time on the most popular options for made-to-order ID+ 3.5" and 4.5" Downlights & Wall Washers.

Now, that's flexibility. Very short lead times on architectural grade downlights and the ability to select the options that are right for the job. Quickship Red is not a stock program, it's a program that's tailored to fit your needs and your schedule.

Discover all the options offered in this guide and consult the Quickship *RED* Policies at the back.

Quickship **RED Policies**

HOW TO USE THIS GUIDE

The product options included in this guide all qualify for **Quickship RED**. Simply complete a catalog number by selecting the options you require and clearly mark your order as **Quickship RED** for fast processing. For more information or an expanded list of options, please consult the individual product cut sheets at focalpointlights.com.

QUICKSHIP POLICIES

Quickship Red line items must be denoted as such to ship with the 2-day terms of the program whether an entire order is comprised of only Quickship Red items or it includes Quickship Red, Quickship, and standard line items.

Items with different lead times will ship separately unless the order is marked as "SHIP COMPLETE". In that case, the entire order will ship with the longest lead time.

Estimated ship dates (ESD) are determined per the following example: If a clean order is received by 11:00am CST on Monday for a Quickship Red, 2-day item, the ESD will be Wednesday. Orders received after 11am will receive an ESD based on the following business day.

ORDER CHECKLIST

-  Complete and correct catalog numbers
-  **Quickship RED** clearly denoted in subject line of email and on PO
-  Complete PO with proper terms
-  Run lengths when required
-  EM/EC locations and voltage when required

REMINDERS

All ship dates are estimated. 2-, 5- and 10-day lead times do not include weekends or holidays.

Consult factory for options or quantities not shown in this guide. Large quantities may not qualify for Quickship or Quickship Red.

Partial shipments may be required based on current factory loads.

Change orders of any kind will affect lead time.
