Seem® 4

LUMINAIRES FOR HEALTHCARE AND BEHAVIORAL HEALTH ENVIRONMENTS

A brand of **Legrand**

Lighting for people, not institutions

Great lighting isn't just about meeting technical design requirements – it's about people and enhancing their experience in the spaces they inhabit.

The proven family of Seem 4 linear luminaires includes options intended for behavioral health environments. Seem 4 Recessed Behavioral Health and Seem 4 Perimeter Behavioral Health bring a sophisticated, hospitality-forward aesthetic to behavioral health and healthcare facilities — offering designers the tools and options to create welcoming, calming spaces that don't look institutional.

The broad Seem 4 family also offers products well suited to healthcare environments. Seem 4 Recessed and Surface Mount Wet Location carry IP65 and NSF2 certifications and serve patient rooms, restrooms, and food-service areas, while Tunable White technology brings a biophilic light quality across the family. Together, Seem 4 Behavioral Health and the wider Seem 4 family bring architectural lighting options to behavioral health and healthcare facilities alike — spaces shaped around the people who use them.

OBSERVED ACTIVITY AREA

Seem 4 Behavioral Health Recessed, individual units and run, Lambertian.

Seem 4 Behavioral Health Perimeter, individual units, Grazer.

One proven platform, shaped for behavioral health

Recessed and perimeter. Trim flange and mud-in. Units and runs.

UNOBSERVED PATIENT ROOM

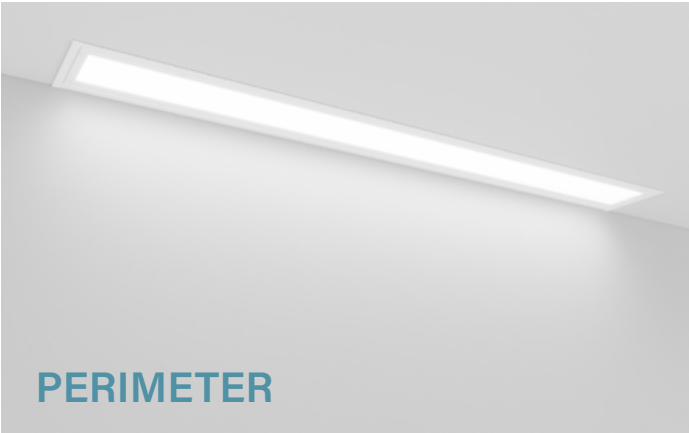

Seem 4 Behavioral Health Perimeter,
8ft individual unit, Asymmetric Room Fill.

Seem 4 luminaires for Behavioral Health are part of an established linear line and they leverage the proven platform to offer a host of options that bring an architectural quality to behavioral health spaces.

Prioritizing safety but not compromising aesthetics, recessed and perimeter luminaires are available as individual units from 2 to 8 feet and in continuous runs in 1-foot increments, with lumen outputs up to 1250 lumens per foot.

RECESSED

PERIMETER

Several optics: Lambertian, Asymmetric, Asymmetric Room Fill, Batwing, and Grazer, paired with architectural light quality options comfortably light spaces, helping create soothing environments for patients and staff. Tunable White technology brings a biophilic light quality that evolves throughout the day, supporting well-being.

The luminaires also offer flexibility to designers and contractors with trim flange or mud-in options, intended for drywall and hard ceilings.

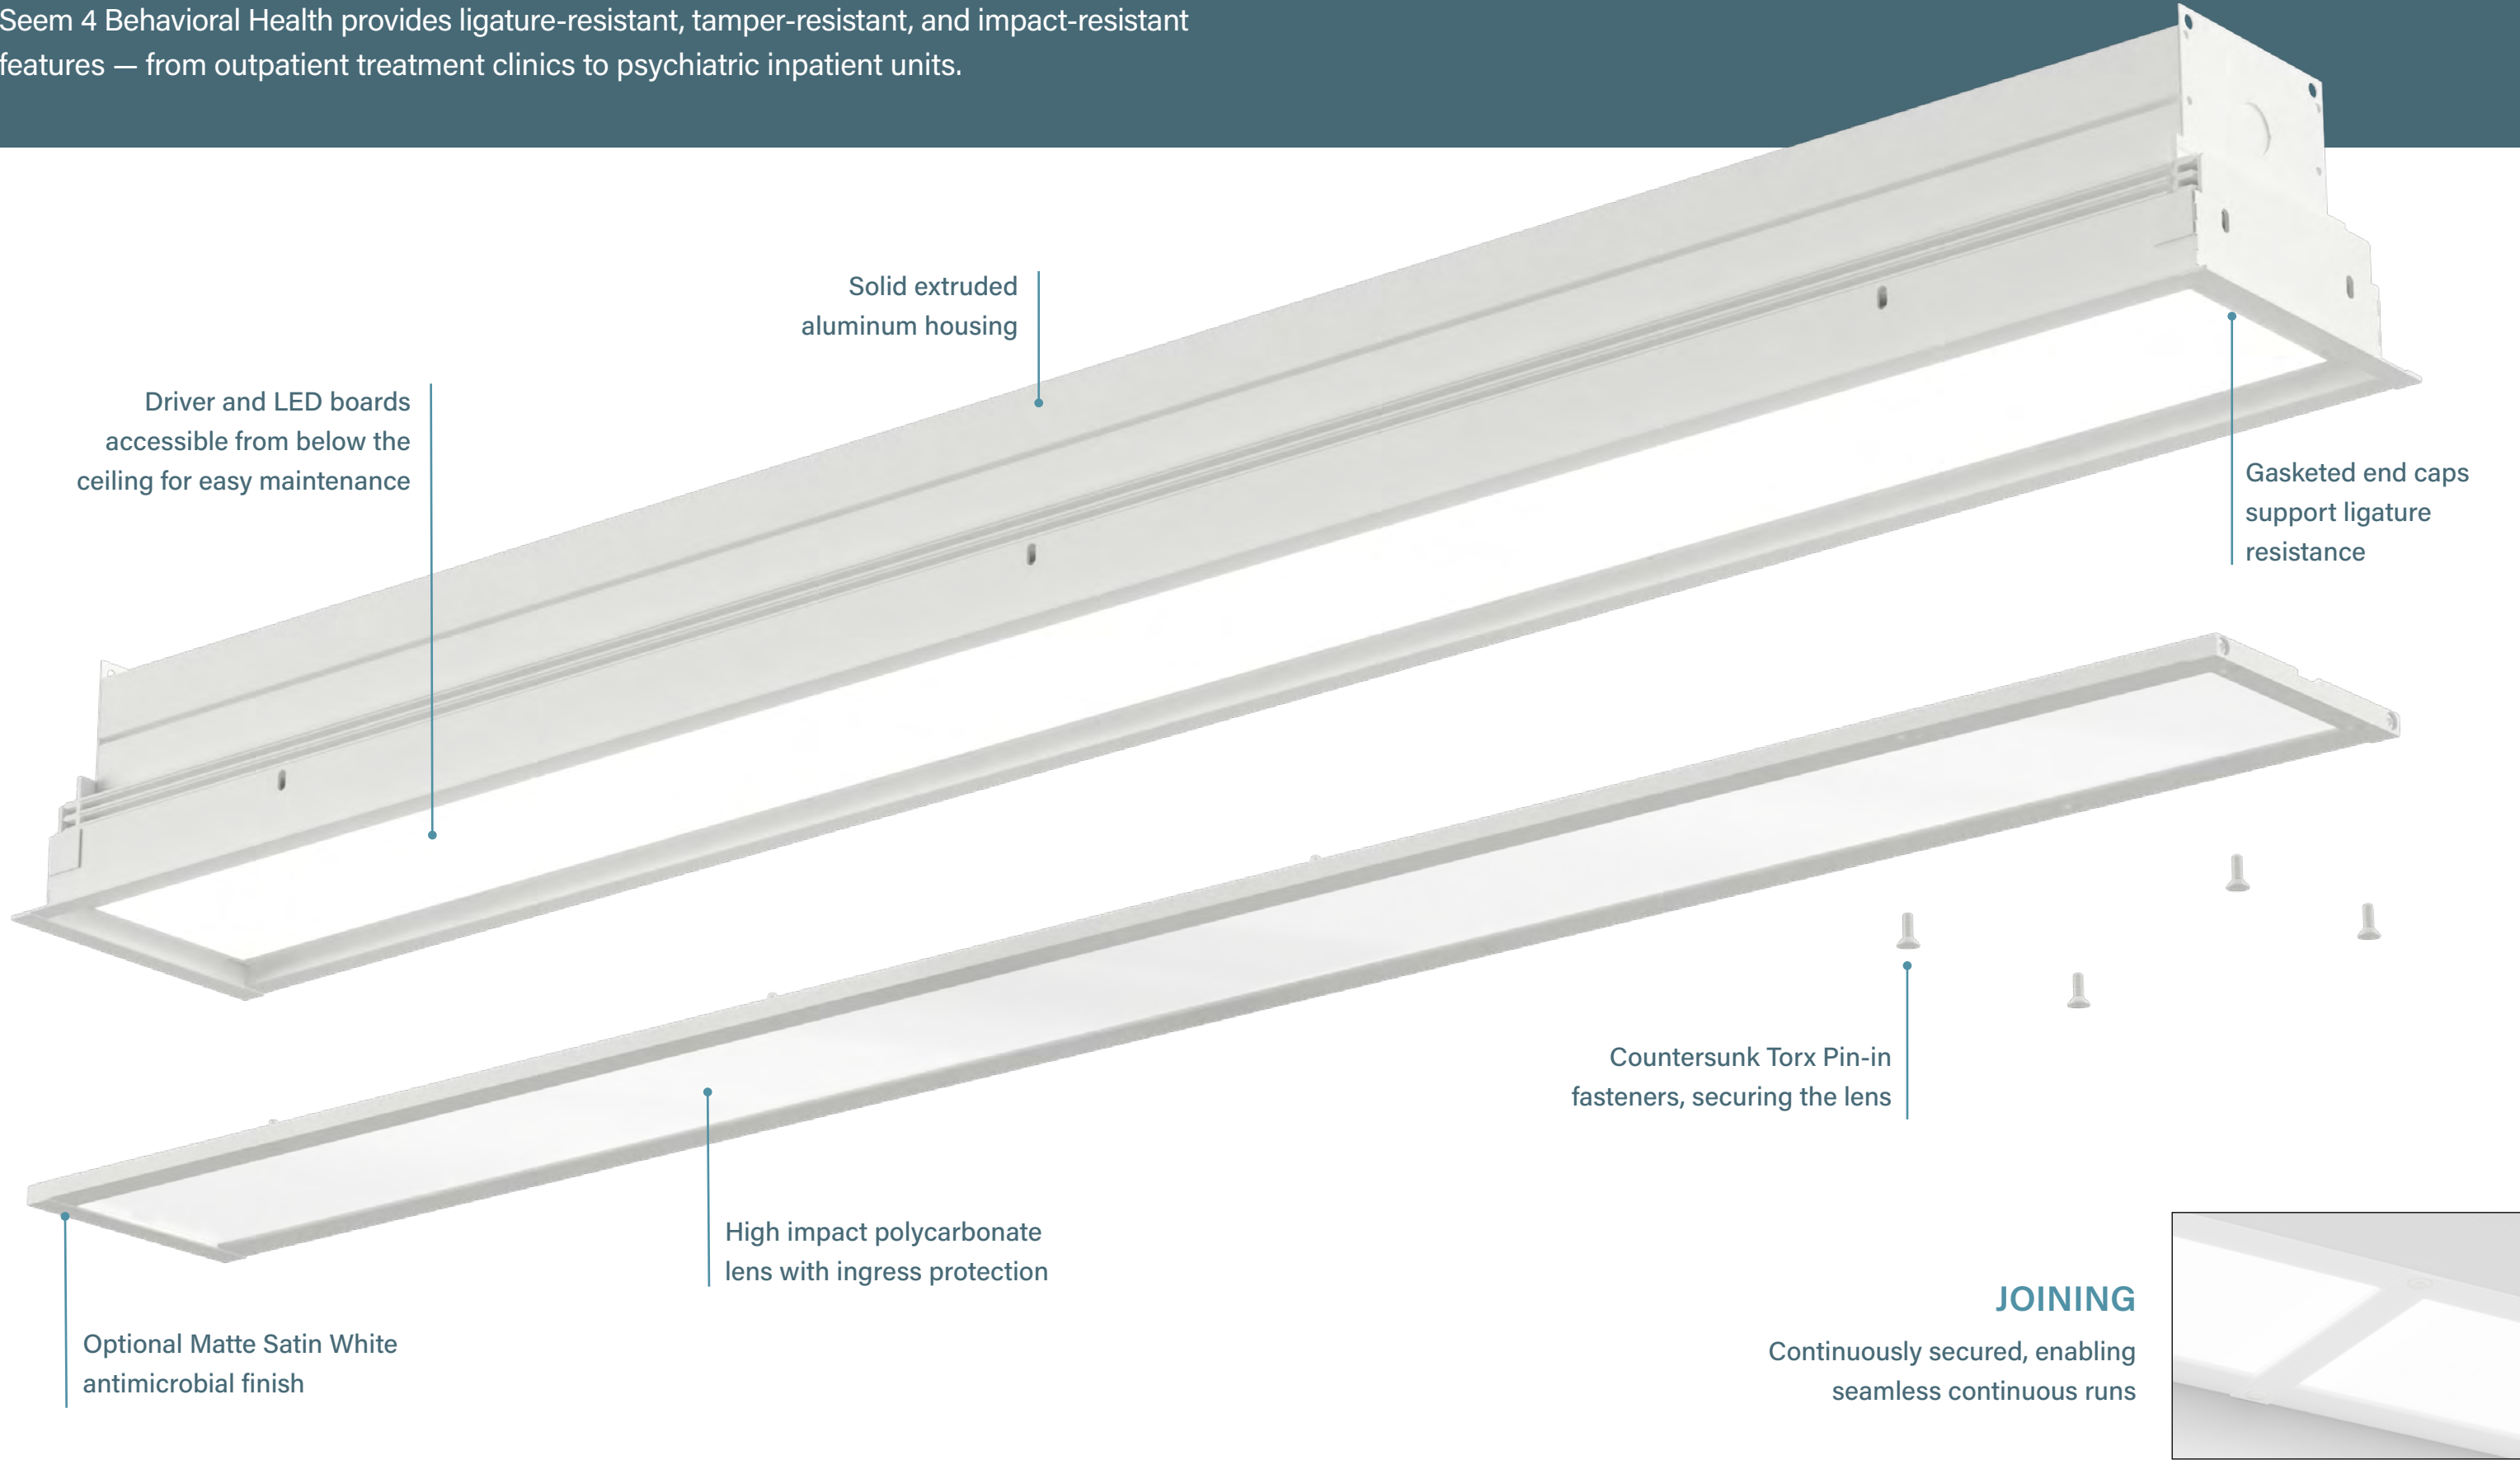

IP65 and IK10 rated for individual units and continuous runs, NSF listed.

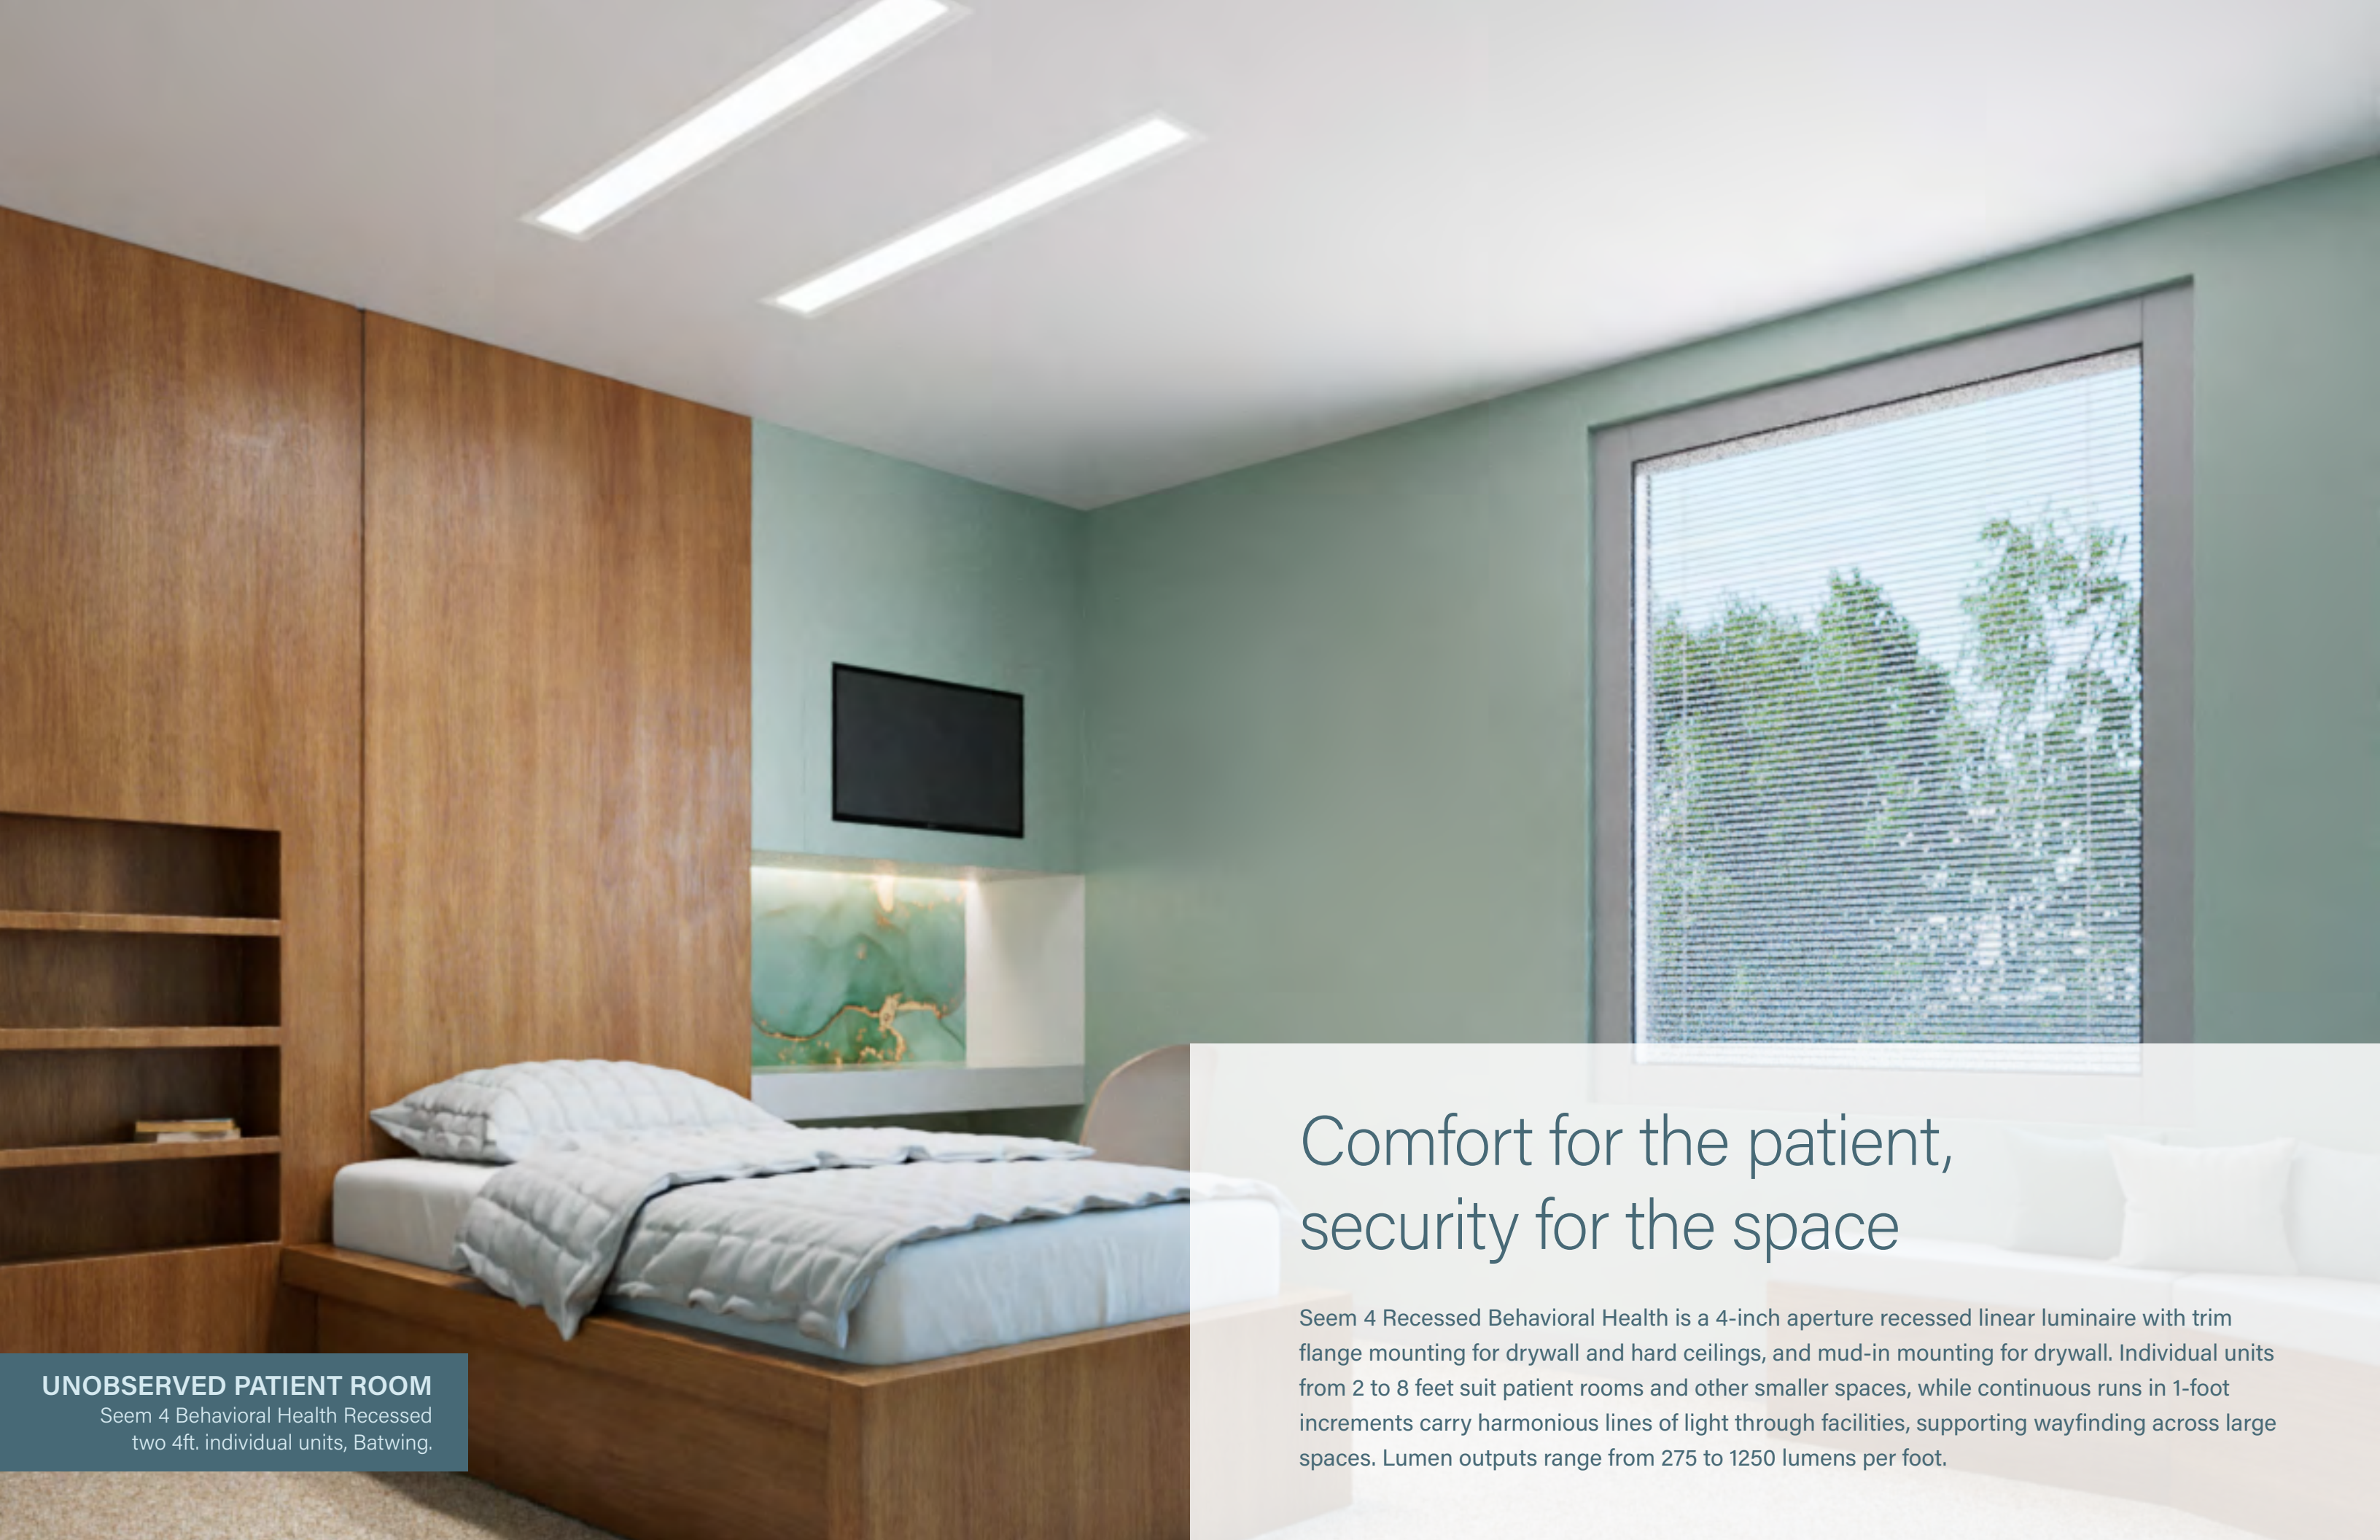

Together, these options help move lighting for behavioral health beyond purely clinical and functional to restorative and welcoming.

Built for safety, designed for calm

Seem 4 Behavioral Health provides ligature-resistant, tamper-resistant, and impact-resistant features — from outpatient treatment clinics to psychiatric inpatient units.

UNOBSERVED PATIENT ROOM

Seem 4 Behavioral Health Recessed
two 4ft. individual units, Batwing.

Comfort for the patient, security for the space

Seem 4 Recessed Behavioral Health is a 4-inch aperture recessed linear luminaire with trim flange mounting for drywall and hard ceilings, and mud-in mounting for drywall. Individual units from 2 to 8 feet suit patient rooms and other smaller spaces, while continuous runs in 1-foot increments carry harmonious lines of light through facilities, supporting wayfinding across large spaces. Lumen outputs range from 275 to 1250 lumens per foot.

OBSERVED CORRIDOR

Seem 4 Behavioral Health Recessed, individual units, lambertian.

Seem 4 Behavioral Health Perimeter, continuous run, asymmetric room fill.

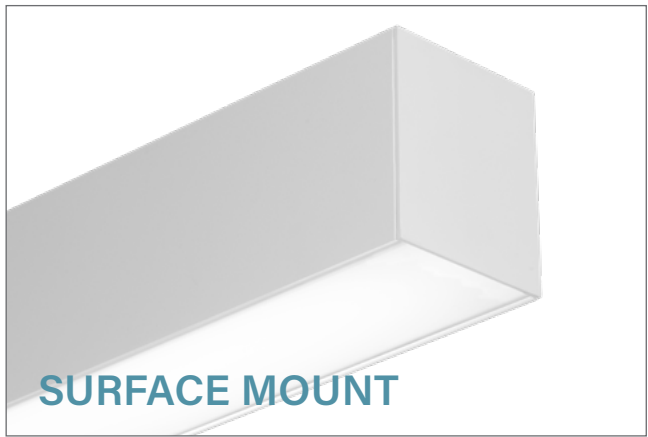

Visual comfort without compromise

Mounted in drywall ceilings, Seem 4 Perimeter Behavioral Health washes corridors and spaces with light from the wall, or traces the perimeter of a room. It is available as individual units from 2 to 8 feet and in continuous runs in 1-foot increments, with lumen outputs from 275 to 1250 lumens per foot.

A comprehensive family, enhancing healthcare facilities

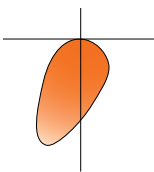

In addition to Seem 4 Behavioral Health, the Seem 4 family includes Seem 4 Recessed and Surface Mount luminaires with IP65 and NSF2 certification, for use in various areas of healthcare facilities including patient rooms, restrooms, and food-service areas. UL and cUL listed for use in wet location rated indoor environments.

SEEM 4 WET LOCATION

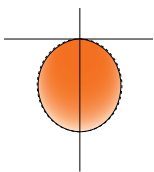

Optics and light quality for every application

A selection of optics and architectural light quality options allow Seem 4 luminaires to support ambient illumination, task lighting, and wall grazing.

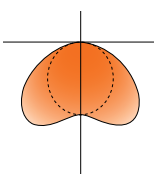

ASYMMETRIC

Broad even vertical illumination and uniformity on walls.

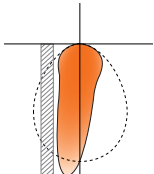

LAMBERTIAN

Even, uniform illumination with the perfect blend of high performance and visual comfort.

BATWING

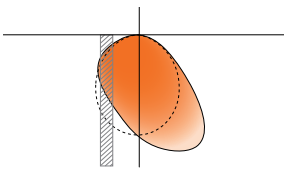

Allows for increased fixture spacing while maintaining uniformity on the workplane.

GRAZER

Provides even vertical illumination, highlighting walls and architectural details.

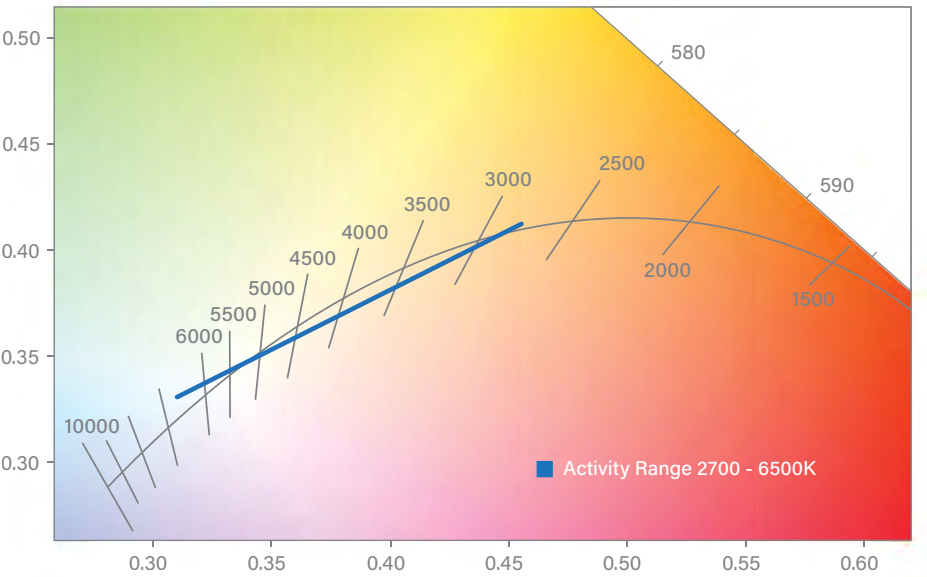

ASYMMETRIC ROOM FILL

Ideal to illuminate rooms and corridors from the perimeter, providing comfortable light of the occupants with superior efficacy and uniformity.

A broad range of lumen outputs, static white color temperatures from 2700K to 4000K at 80 or 90 CRI, and integration with various control systems provide flexibility in specification for each application. Tunable White technology brings a biophilic element to healthcare spaces, mimicking natural light throughout the day. Color temperatures ranging from 2700K to 6500K naturally support human activity, contributing to enhanced mood and alertness.

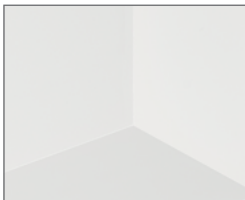

Tunable White Activity Range 2700K – 6500K provides superior light quality and seamless transition between the color points of the CCT range close to the black body curve.

Finishes that elevate the space and meet clinical needs

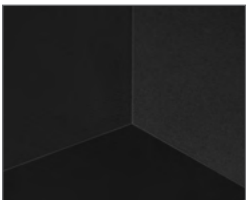

Seem 4 offers finishes for the demands of a healthcare interior: surfaces that meet clinical requirements, and surfaces that make a space feel welcoming and warm.

ANTIMICROBIAL FINISH

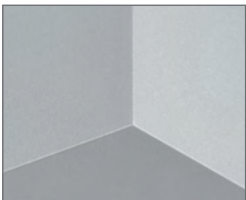

Meets clinical requirements to inhibit microorganism growth.

Matte White /
Antimicrobial Matte
Satin White

Matte Black

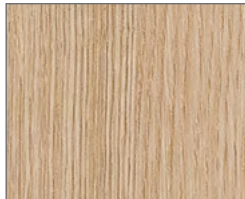

Titanium Silver

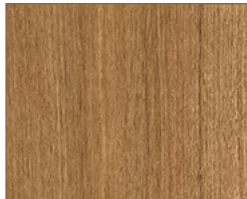

Seem 4 Recessed Behavioral Health and Seem 4 Perimeter Behavioral Health are finished in Matte White as standard, with an Antimicrobial Matte Satin White option. The antimicrobial finish helps reduce the spread of bacteria, viruses, and fungi, lowering the risk of healthcare-associated infections.

THE NATURALS COLLECTION

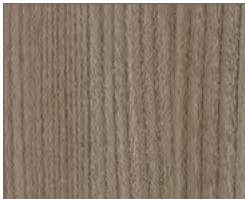

25% Scale

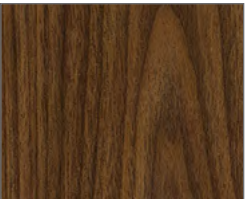

Light Oak

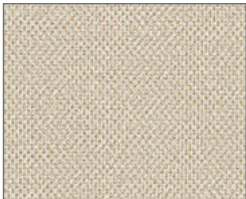

Chestnut

Gray Elm

Walnut

Woven Linen

The Naturals finish collection brings organic beauty to architectural luminaires. Five nature-inspired finishes, rendered on luminaire housings to impart natural fabric and wood looks, The Naturals provides a visual connection to the outdoors and enlivens interiors with nature’s warmth and beauty — in healthcare facilities and anywhere else a natural touch is desired.

PATIENT ROOM
Seem 4 Wall Mount in Walnut.

Technologies and certification that support stringent project requirements

Seem 4 luminaires carry the technologies and certifications that healthcare and behavioral health spaces require.

LIGATURE RESISTANCE

DUT: TRSM4PR-FXH-FL0-1C-UNV-L11-TF-WH-4FT, 3rd-party tested for ligature per Patient Safety Standards, Materials and Systems Guidelines as recommended by the New York State Office of Mental Health.

TUNABLE WHITE

Closely follows the black body curve of a natural light source to provide a light quality that evolves throughout the day, supporting human activity, well-being, and preferences.

POWER OVER ETHERNET (PoE)

Integrates with building automation systems via standard Ethernet cables that provide low voltage power and data connection.

IP65 INGRESS PROTECTION

Tested per IEC 60529, IEC 60598-1 to be dust-tight and protected against water jets from any direction.

NSF2 LISTED

Evaluated for corrosion resistance, cleanability, and the ability of exposed materials to withstand normal wear.

WET LISTED

UL and cUL listed for use in areas where water and other liquids may drip, splash, or flow on or against the electrical components of the luminaire.

IK10 IMPACT RESISTANT

Tested for impact-resistance per IEC 62262
to withstand forces up to 20 joules.

DECLARE

Declared products foster transparency by voluntarily disclosing product information on easy-to-read labels.

BUY AMERICA PROGRAMS

May support projects that must meet the requirements of various programs (specific configurations).
